

Delivering Results: From Idea to Outcome

STRATEGIC VISION AND TACTICAL EXECUTION WITH T2TECH

Fostering Success Together

Through longstanding collaborations with esteemed organizations, we have been at the forefront of shaping the future of healthcare since 2006. Together with our valued clients, we are spearheading positive change, revolutionizing healthcare delivery, and ushering in an era of enhanced patient care and groundbreaking innovation.

T2Tech, part of T2Group, is an information technology professional services company that provides expert resources and strategies for healthcare providers and organizations whose mission-critical operations demand 24/7, world-class IS.

We merge business goals with execution to drive accelerated growth and achieve transformative solutions. We take complex technology initiatives and make them practical and actionable. Then, we get the job done.

With a proven track record spanning over 25 years, our team excels in leadership — assessing, designing, and implementing diverse technologies across information services to

optimize investments and achieve long-term strategic objectives for our clients.

Combining the expertise of strategists, program leaders, project managers, subject matter experts, and engineers, we bring together a wealth of diverse skills and industry knowledge.

Through this collective approach, we effectively manage complex projects while cultivating a highly productive and collaborative environment across all organizational levels.

DESIGNED TO DELIVER: OUR METHODOLOGY

T2Tech leverages a unique hybrid-agile methodology to execute large-scale projects effectively, efficiently, and within budget.

Our approach combines the strengths of traditional project management with the adaptability of agile methodologies. By integrating these two approaches, we achieve the best of both worlds — ensuring iterative progress, frequent client collaboration, and timely delivery of project milestones. This methodology enables us to respond swiftly to changing requirements, mitigate risks proactively, and maintain a sharp focus on project goals, ultimately driving successful outcomes for our clients.

OUR SERVICES

Implementation

Our hands-on, personalized approach ensures a balance of client requirements, budget and time constraints, and alignment with IS operations. During the implementation phase, our primary focus is on ensuring the success of the IT initiative and maximizing business results. Program managers, subject matter experts and executive leadership are actively involved in projects and are regularly onsite to maintain accountability and transparency, ensuring the successful execution of politically and technically challenging IT initiatives.

Architecture & Strategy

We assist organizations in developing their strategic IT Infrastructure and application initiatives, ensuring alignment with overall strategic and operational objectives. Our architecture and streamlined workflow design encompass integration, hardware consolidation, streamlined process design, automation, and optimizing capability sourcing models to maximize the value of IS assets. Collaborating closely with our clients, we create an operational management strategy that includes an architecture blueprint, roadmap, project plan, and financial schedule.

Assessment

Our assessments are tailored to evaluate crucial aspects such as IS architecture, applications, resource deployment, and operational efficiency. We delve into cost sensitivities, identify potential risks, and prioritize requirements and opportunities. With a roadmap-oriented approach, we present a clear path to enhance overall efficiency, complete with a detailed transition plan. Our assessments have a proven track record of aligning IS initiatives with business strategies, addressing both current and future requirements.

Project Leadership

In close partnership with our client's resources, we strategically assemble teams led by skilled leaders, ensuring smooth project execution from start to finish. Emphasizing strong project governance, we define objectives, establish milestones, and foster collaboration among these teams. We navigate challenges, mitigate risks, and optimize resource allocation to deliver successful project outcomes.

Unlock Your Future.

T2Group is a leading provider of technology-driven solutions for healthcare providers and organizations. With a thorough understanding of the intricacies of modern healthcare, T2Group harnesses its expertise and innovative technology to tackle complex projects and achieve substantial outcomes. From improving patient access and satisfaction, to maximizing revenue performance and streamlining operational efficiency, T2Group is committed to leaving a lasting impact on your future.
